Evergy Missouri West, Inc.
818 South Kansas Avenue
Topeka, Kansas 66612

Attention: Jared Morrison –Director, Water and Waste Programs

**RE: Notification Establishing Assessment Monitoring Program
CCR Landfill
Sibley Generating Station**

Dear Mr. Morrison:

On behalf of Evergy Missouri West, Inc., in accordance with Title 40 Code of Federal Regulations (40 CFR) § 257.94(e)(3) of the U.S. Environmental Protection Agency Federal Coal Combustion Residuals (CCR) Rule (40 CFR §§ 257 and 261), SCS Engineers has prepared this notification that an assessment monitoring program has been established for the CCR Landfill at the Sibley Generating Station. The CCR unit is monitored by a single-unit groundwater monitoring system. A statistically significant increase (SSI) over background levels for one or more constituents listed in Appendix III has been determined for the CCR unit. Per 40 CFR § 257.94(e)(2), a successful demonstration that a source other than the CCR unit caused the SSI over background levels was not completed within 90 days of the SSI determination, and the assessment monitoring program was initiated. The assessment monitoring program has been established to meet the requirements of 40 CFR § 257.95.

Sincerely,

John R. Rockhold, P.G.
SCS Engineers

Douglas L. Doerr, P.E.
SCS Engineers
